Newfoundland and Labrador is the most easterly province in Canada, and is at the north-eastern corner of North America. The Strait of Belle Isle separates the province into two geographical parts: Labrador, which is a large area of mainland Canada, and Newfoundland, an island in the Atlantic Ocean. The province also includes over 7,000 tiny islands.

### Newfoundland and Labrador - Wikipedia

Newfoundland and Labrador is the most easterly part of North America, and its position on the Atlantic has given it a strategic importance in defense, transportation, and communications.Its capital city, St. John's (on Newfoundland), for instance, is closer to the coast of Ireland than it is to Winnipeg, Manitoba.Of perhaps greater significance have been the great fish stocks that inhabited ...
