## **Anatomy & Physiology - Digestive**

The digestive system (figure 24.1) consists of the digestive tract, a tube extending from the mouth to the anus, and its associated accessory organs, primarily glands, which secrete fluids into the digestive tract. The digestive tract is also called the alimentary tract, or alimentary canal.

## **Seeley–Stephens–Tate: © The McGraw–Hill Companies, 2004**

The organs of the digestive system can be separated into two main groups: those forming the alimentary canal and the accessory digestive organs. Organs of the Alimentary Canal The alimentary canal, also called the gastrointestinal tract, is a continuous, hollow muscular tube that winds through the ventral body cavity and is open at both ends.
