To end our fall semester in Art Therapy, our teacher had the class complete a famous technique used in the field, the Don Jones Assessment. This technique took the class on a guided imagery journey and was followed with a drawing part after hearing what was read. Each student in the class was to picture themselves on a journey with a backpack that held everything they would need on the journey.

DJA: Don Jones Assessment - Where Creativity Works

Caveats Regarding Assessment. The individuality of the client and the possibilities of idiosyncratic meaning and/or defensive obscuring of meaning in the drawing should be foremost in the clinician's awareness. When providing assessment, always observe the art making process, and then involve the client in reflection.
