### Descartes Error Emotion Reason And

After reading Descartes' Error: Emotion, Reason, and the Human Brain, I wanted to give an overview of the book, and insight on how to go about reading it. First off, I would suggest this book to anyone who thinks that they are a logical thinker and decision maker that does not let emotion interfere with their decisions.

### Descartes' Error: Emotion, Reason, and the Human Brain ...

Descartes' Error: Emotion, Reason, and the Human Brain is a 1994 book by neurologist António Damásio, in part a treatment of the mind/body dualism question. Damásio presents the "somatic marker hypothesis", a proposed mechanism by which emotions guide behavior and decision-making, and positing that rationality requires emotional input. He argues that René Descartes' "error" was the dualist separation of mind and body, rationality and emotion.

We are only capable of reasoning through emotion. Thus the title 'Descartes Error' alludes to Descartes originally claiming emotion and reason were completely separate, forming the basis of the way we still talk and think about it. Eg. "don't let your feelings influence your decision".

### Descartes Error

The new proposal in Descartes' Error is that the reasoning system evolved as an extension of the automatic emotional system, with emotion playing diverse roles in the reasoning process. For example, emotion may increase the saliency of a premise and, in so doing, bias the conclusion in favor of the premise.
