I have an 05 International 4300 with the DT466. I have a major water leak from the front cover, right above the water pump. It's coming from a bolt hole that is between the tensioner and alternator. The hole is tapped, but looks like there hasn't ever been anything threaded into it. It's about 8mm (5/16") in diameter, and is about 7/8" deep.

DT 466 ENGINE OIL PUMP. from John Whelan Plus . 6 years ago. This video is all about a repair our shop did on a DT466E International diesel engine. It would not start and we finally found the engine oil pump to be weak along with a scored oil pressure regulator. The engine oil pump feeds the 'high pressure oil pump' that runs the HEUI system.

In case of cars that have a timing chain, the timing cover secures the front section of the engine block with the help of a timing cover gasket. In this way, the timing gears and chain receive lubrication with the engine oil. If the timing cover gasket breaks, you will notice engine oil leaking. If your car has a timing chain, it will most ...
