Ford Flathead V8 Engine

The Ford flathead V8 is a V8 engine with a flat cylinder head designed by the Ford Motor Company and built by Ford and various licensees. During the engine's first decade of production, when overhead-valve engines were used by only a small minority of makes, it was usually known simply as the Ford V-8, and the first car model in which it was installed, the Model 18, was often called simply the "Ford V-8", after its new engine. Although the V8 configuration was not new when the Ford V8 ...

Ford flathead V8 engine - Wikipedia

It's been over 50 years since the last Ford flathead V-8 was commercially produced in the U.S. It was not your Dad's engine-it was your grandfather's. Simple by today's high-tech standards, during...

The Ultimate Source Guide for Flathead Ford V8 Performance

The first of the Ford L-head (flathead) V8 engines left the factory on March 9, 1932. This engine used a 90-degree block, with the valves located next to the pistons, pointed upwards. The heads are not truly flat, having four spade-shaped combustion chambers to accommodate the motion of the valves.

A thorough refresh on the popular V8 powered Ford. The four-cylinder Model A engine was no longer offered, leaving just the 221ci V8 to power every Ford car and truck. This consignment, a 1935 Ford Model 48 was originally purchased in 1997 from Escondido, California and brought back east to Virginia to be restored to its present condition.

1935 Ford Model 48 for Sale | ClassicCars.com | CC-1390655

The Ford Flathead V-8 engine powered Ford and Mercury vehicles from 1932 to 1954. The Ford Flathead is a valve-in-block engine and the valves open adjacent to the combustion chamber, rather than from the top, as in later engines. The four different V-8 flathead displacement sizes between 1932 and 1953 are 136, 221, 239 and 337 cubic inches.

How to Identify the Ford Flathead V8 | It Still Runs

The Mercury 255.4 cid engine gets higher compression, boosting power to 125 HP. The mechanically unchanged 239.4 Ford V8 is called the "Strato-Star" and gets rated at 110 HP. In F series trucks, a higher lift cam raises the truck HP to 106. The 336.7 cid motor is in F7 and F8 trucks.
