About - Rainbow Technology

Our History - Rainbow Technology. In October, 1971, Mrs. Steeley originated a chemical start-up business, which later became Rainbow Technology Corporation. The start-up business was initially ran out of her garage with the assistance of her two sons. Over time and with considerable effort, the company slowly, but steadily developed a broad range of products serving the telecommunications, electric power, [...]

Our History - Rainbow Technology

Since 1971, Rainbow Technology Corporation has been the provider of specialty products to some of the largest utilities and industries in the world. To meet the standards of these companies, one thing counts above all others: Performance. It's not enough to have "consumer-friendly" labeling or formulas — you must sell products that perform.

Shenzhen Rainbow technology Co.,Ltd-Professional Projector ...

The Rainbow data storage technology claims to use geometric shapes such as triangles, circles and squares of various colors to store a large amount of data on ordinary paper or plastic surfaces. This would provide several advantages over current forms of optical- or magnetic data storage like less environmental pollution due to the biodegradability of paper, low cost and high capacity.
