Program Evaluation In The Human

Program evaluation is one of ten essential public health services [8] and a critical organizational practice in public health. [9] Until recently, however, there has been little agreement among public health officials on the principles and procedures for conducting such studies.

Program Evaluation Guide - Introduction - CDC

Program evaluation can be defined as “the systematic collection of information about the activities, characteristics, and outcomes of programs, for use by people to reduce uncertainties, improve effectiveness, and make decisions” (Patton, 2008, p. 39). This utilization-focused definition guides us toward including the goals, concerns, and perspectives of program stakeholders.
