The MYTH of the RATIONAL VOTER - Emil O W Kirkegaard

In The Myth of the Rational Voter, Bryan Caplan presents a noteworthy challenge to a view that prevails among economists who study political behavior and political scientists who employ rational-choice theory—namely, that the average voter in a modern, democratic nation rationally chooses to remain largely ignorant about the options presented to him in an election.

The Myth of the Rational Voter: Why Democracies Choose Bad ...

The Myth of the Rational Market tells the story of how we came to believe that financial markets knew best, and how that belief steered us wrong. At least, that’s one way to describe it — I came up with that paragraph as the book was being published in the scary economic environment of June 2009.

Myth of the Rational Market - By Justin Fox

There are even organisations who try to classify their donors into ‘rational’ or ‘emotional’ givers in an attempt to tailor their communications accordingly. It’s a common myth in our sector that suggests our marvellous donors give because of what they think rather than what they feel .
